## INTRODUCTION

**Welcome to Northfields, home to the UKs largest selection of table linen, napkins, chair covers and accessories all available for hire at an affordable price.**

Founded in 1953, in a small house on Northfields Road, London, the family run business was the first of its kind in the UK to offer the hospitality industry a bespoke table linen rental service. Starting with just a small stock of white cotton linen products, the family collected, hand washed and ironed each tablecloth and napkin, ready to be repackaged and delivered back to its customers the following day.

The business grew and subsequently went on to install a fully functioning commercial laundry, followed by the manufacturing of its own fabrics. This has allowed the company to exercise total control over colour continuity, design, down to the last stitch. From that day to this we have continued

to innovate, priding ourselves on listening carefully to our customers and responding quickly to their ever changing needs, by providing a sustainable quality product.

Today we stock the finest selection of linen, available in over 100 different colours and fabrics. We deliver across the length and breadth of the country, and our linens grace the tables of some of the most prestigious venues in the land. No order is too big or too small and our expert team of customer advisers are on hand to assist you with every aspect of your order.

Whether you are planning a wedding; conference; award ceremony; gala; banquet; corporate function; restaurant opening or simply an intimate dinner for two, take a look through our brochure and be truly inspired.

# MONARCH

Cotton is a soft, staple fibre that grows around the seeds of the cotton plant. The fibre is most often spun into yarn or thread and used to make a soft, breathable textile, which is the most widely used natural-fibre cloth in clothing today. In the 19th and early 20th centuries, cotton was known as “King Cotton” because of the great economic and cultural influence it had over the Southern United States.

Our Monarch is undoubtedly the King of Tablecloths with its rich natural handles and ribbed effect – this captivating range will transform your event.

# GINGHAM

The gingham is a fabric steeped in 500 years of history and takes its name from the Malayan word *genggang* or 'striped.' Today we recognise gingham as being a contrasting-check pattern, marked by having the coloured yarns (the warp) dyed before it is woven against the uncoloured yarns (the weft).

A fabric favourite, the gingham continues to be an integral part of the spring and summer style landscape.
